Nice and easy to read tourist map, focuses more on landmarks & attractions and a little less on precise directional information...however will be ideal for a walking around in a city such as Florence. It really only covers the core city center and some of the area across the river (Boboli Gardens, Oltrarno); if you are staying a few blocks outside the city center but still within walking distance to the main sights, you might need another map (or at least walking directions from your hotel to town). Nice plastic water resistant material that should hold up better than paper with handling.

Easy to use map with all of the streets marked. The inset map showed the city center and around the Duomo. It was extremely useful when we traveled to Florence. Much better than the other stiff laminated maps we had of Rome.

These are excellent maps and they are easy to find tourist attractions.

Item as described with prompt delivery

I already had this map and had used it extensively. I purchased an additional one for family members that are planning a Florentine experience.

Love these maps I've bought them for other cities of travel to!

Nice map of central Florence. My only reason for not giving the map 5 stars is that it was limited to the central city.

the best
