Thief In The Night, The Case Of The Missing Millennium

Synopsis

The problem. In the first half of the nineteenth century there was world-wide and fervent expectation that during the 1840's the return of Christ would take place. The story made the headlines and even reached the Congress of the United States. From China and the Middle East to Europe and America, men of conflicting ideas shared in the expectancy. Scoffers were many but the enthusiasm was tremendous, and all agreed on the time. Why? And what became of the story? Did anything happen or was it all a dream? The solution. Patiently, and with exemplary thoroughness, William Sears set out to solve this mystery. In 'Thief in the Night' he presents his fully detailed 'conduct of the case' in an easy style which enthuses the reader with the excitement of the chase. The solution to which all the clues lead comes as a tremendous challenge. This is a mystery story with a difference: 'the mystery is a real one', and of vital importance to every human being. The author presents the evidence in 'The Case of the Missing Millennium', in such a way that you can solve it for yourself.

Customer Reviews

So many of the confusing prophecies of the Old & New Testament actually come together in this

book--like the pieces of a jig-saw puzzle. The style of the book, written as a detective searching for clues, is engaging. I had this book in the past, loaned it to a friend, & now have my own new copy back again. // One of the amazing discoveries, is that Jesus Himself refers the reader (of the New Testament) to the book of Daniel. In the book of Daniel we find 2 dates which stand out: the year 0 A.D. & the year 1843-1844. This is remarkable! Sears takes one on a journey through time--from the very beginnings of Jewish history right up to the present. I highly recommend this book. What could have been a very ponderous book is actually a fun & easy read.

This is definately an INSPIRED, thorough and engaging look at Sacred Scriptures, for any seeker after a better understanding of spiritual Writings, across several traditions and with a delightful approach! I'd definitely and HIGHLY recommend this to any reader / seeker wanting a logical and reasonable understanding of "end times" prophesy.

This is a well written book; good for anyone interested in the "Second Coming". It draws on Biblical reference, and reads as a good mystery.

I knew nothing about this. Historically or theologically Not even sure why I chose the title to read. Devine guidance??????

This book, though dated now, is the most comprehensive and thorough search for the Return of Christ I've ever read. It belongs in the library of anyone who's interested in religious history and the future of mankind.

The book is a record of this man's research about the prophecies in the Holy Bible relating to Baha'u'llah, the Messenger for the Baha'i Faith. The research is strong and the account is fascinating.

This goes thru all the prophesy's for the return! Treats history as a mystery story and keeps you reading! Explains things without confusing you as you go. Makes so much sense! Great book!! I love it!!!

One of the best books of all time for people wanting to understand religion in our age and what is changing the world for the better now.
