Customer Reviews

My daughters (8 and 9) liked this book. It was a bit short and easy for their reading level but they seemed to really enjoy it. My daughter said if they bind up all the stories in this series into one book she would be interested in owning it. I didn't read the book so I can't comment on content.

My 6 year old was so excited for this. He loved the book and it was easy for him to read.*****5 stars:

Wow! This product is of awesome quality! A steal in value and definitely can live up to whatever their claims are. I will definitely be keeping and maybe purchasing more. I would recommend to friends and family. ****4 stars: Good product of quality! This item has met at least 90 percent of my expectations, The design is sound, The build is great and the product does what it was made for. It's a great product that i can recommend buying. However it didn't completely wow me. This is what most products fall under. I would not return item.***3 stars: Product is just okay. May have some cool features but did not meet all of what it claimed it would be able to do. Something is off and you would want to be warned about it before hand of buying it. I probably will not return but it would be settling. **2 stars: Product is not the worse of the worse but is of cheap quality or does not live up to description. Would still be returning because does not meet the needs I purchased it for or that it would probably wont have longevity in my opinion.*1 star: Not worth the time or money I recommend you keep looking for something of better quality. I wish I would have not purchased and wish I could have given it no stars. Will be returning product.

I got this for my younger son who is not only in love with Diary of a Whimpy Kid Series, but everything Minecraft. So of Course I was the coolest mom in the world for finding these. He rolled through these so fast that he was able to lend them out to his friends after 2 days. He actually put the video games away to finish reading.. SCORE! I can't wait for the next editions- these books are every mom's dream come true!!

My son who is 8 absolutely loves this series of books! He read it in about 3 days since the book is only about 85 pages long. He said the book was fun to read therefore it kept his attention which is impressive for an active 8 year old boy!

Stocking stuffer for everyone that loves and/or adores minecraft p.e. because I know I love minecraft it might kill me.

This book came in black and white and most of the pictures were unidentifiable. I cannot believe anyone gave this book a positive review. The quality of printing was horrible.
