# The Complete Guide To Making Your Own Wine At Home: Everything You Need To Know Explained Simply (Back To Basics)

## Synopsis

Newly updated in 2015 and packed with pertinent information, this book walks every potential winemaker through every process necessary for creating and enjoying wine from the comfort of your own home. From the basics of distillation to the ingredients used, homemade wine can be on your table and wowing guests in no time. You will learn the all the basics of homemade wine making, starting with what ingredients are the best and that's not all you'll learn. Other features include Basic aspects of both red and white wines How the body and bouquet of each wine is supposed to taste and feel How the grapes are pressed and how long you must wait between the pressing The addition of other ingredients, both when and how to include them The bottling of the wine More than 100 winemakers, winery owners, and home wine experts were interviewed to gain a general overview of how winemaking is done, with details about the difference between each wine, the right mixture of ingredients, the better wine taste, and the testing and trying of new things in each bottle. You will learn how to measure and affect the sulfur dioxide levels in your wine and ultimately how to take control of every aspect of your wines, from taste to dryness to odor and color. Everything you could possibly want to know about wine making and much more is presented in this complete guide for anyone with an eye for the hobby.

## Customer Reviews

John was born in Miami, Florida in 1970. He grew up in the Tampa Bay area, but attended the North

Carolina School of the Arts, in Winston Salem NC, for High School. He attended Florida State University and got a Bachelor's degree in Psychology from Appalachian State University. In August of 2007, he took the plunge. John had been a social worker in child protective services for far too many years, and had been toying with the idea of being a writer. He had written for a few national magazines and received positive responses for his work. He decided to quit social work and took a chance at writing full time. Luck was on his side, as his first year he was signed to write seven books for Atlantic Publishing Company. Since then he has been writing for a number of magazines including Herb Companion, Precognito, and Winemaker Magazine as well as freelance work to create workbooks, ebooks, articles, ghost write books, blogs and much more. He is now working full time filling requests and hope to get some fiction completed and published this coming year. He freelanced for the New York Times, Bloomberg News, and Reuters. He is working on an upcoming book about his adventures covering the John Edward's trial.

Constantly being drunk from my own wine has made it harder to focus on work. Guess it's not really the book's fault. OR IS IT? Clear easy to read instructions on how to make wine obviously has made this all possible. i actually keep this on my desk so when the boss isn't looking, i can come up with recipes and plans for new wines to work on. It's like an addiction!

This book is an excellent resource for anyone that wants explicit details for making wine with a kit, juice, fruit, or grapes. It also breaks down all the materials needed and the different chemicals used (refining agents for example) that I haven't seen in other starter books. I am still new to home winemaking and doing kit wine, but wanted to understand the PURPOSE of each step and how they differ from making wine from grapes. Can't recommend this book enough for those starting out, with an interest in the details.

it is a great resource for first timers.
