Silva's Diagnostic Renal Pathology

Synopsis

Approximately ten percent of the world population are affected by kidney diseases, which often can only be diagnosed by renal biopsy. This practical guide offers an algorithmic, deductive approach to the interpretation of this complicated procedure, covering all technical methods used for diagnosis. This new edition includes an authoritative chapter on digital renal pathology, a topic inadequately covered in current literature. All chapters have been extensively revised in light of major advances in the understanding of the pathogenesis and clinicopathological features of renal disease. Written for practising pathologists and nephrologists, this text encompasses the entire spectrum of medical renal diseases in both pediatric and adult populations. Its numerous diagnostic algorithms provide a convenient overview and a helpful guide into the detailed text, directing the reader to major patterns of interest. Including online access to over 1000 photomicrographs and diagrams, this book is also of interest to trainees in nephrology and pathology.

Book Information

Hardcover: 690 pages

Publisher: Cambridge University Press; 2 edition (May 19, 2017)

Language: English

ISBN-10: 1316613984

Customer Reviews

A practical guide offering an algorithmic approach to interpreting renal pathology. This second edition has been revised extensively to reflect new classification schemes and advances in the understanding of renal diseases. A valuable reference text for renal pathologists and nephrologists, it is also of interest to trainees in nephrology and pathology.

Xin Jin (Joseph) Zhou is Professor of Pathology and Laboratory Medicine at Texas A&M University

School of Medicine, and Director of Renal Path Diagnostics at Pathologists Biomedical Laboratories, Department of Pathology, Baylor University Medical Center, Dallas. Zoltan G. Laszik is Professor of Pathology at the Department of Pathology, University of California, San Francisco. Tibor Nadasdy is Professor of Pathology and Director of the Renal Pathology Laboratory at the Department of Pathology, Ohio State University, Columbus. Vivette D. D'Agati is Professor of Pathology and Director of the Renal Pathology Laboratory at Columbia University College of Physicians and Surgeons, New York.

I bought this book lately and felt it's a well-written text for learning and teaching renal pathology. Instead of being an outlined atlas, the second edition of the book continues to serve as a practical guide for daily practice. Many thanks for the authors in updating the book. Enjoyed my reading!
