Customer Reviews

"Read Inside Track to Careers in Real Estate. It could be one of the smartest investments that you ever make." — Donald Trump

Stan Ross is the chairman of the board of the University of Southern California Lusk Center and a life trustee of the Urban Land Institute. James Carberry is a professional writer.

I thoroughly enjoyed this book and it really gave me even more insight to an industry I am a part of. Being two years into the business this book has helped me get an idea for the next step. Highly recommend to anyone seriously considering a career in real estate.

A little bit out of date. I recommend you buy a book that is up to date. Also the book is geared towards newcomers. If you're going through an MBA, or an advanced program, it's not worth buying.

This book is good for anyone considering the real estate development field. It provides lots of information on the types of positions available for entry level, as well as long term career tracks.

As advertised, fast shipping

eh, its okay. It's pretty inspirational I guess, but not that informative about real estate. I just suggest you take a class or something or find another book. All it says about getting a career is that you should network, start early, be optimistic, and be awesome. There, I just saved you \$18.

Very basic real estate book.

BS'D! If you are interested in real estate development this is the best starting point for you. Mr. Ross writes concise and retains the ability to keep the reader excited to turn to the next page. The Inside Track to Careers in Real Estate gives a realistic snapshot of the real estate market. Whether you are a student in high school, collage, or looking for a career move, this book will give you the information you will need to start off and excel in real estate development. Enjoy!

I bought this book not knowing exactly what to expect. I ended up reading it in one sitting, and by the end, I felt like I had had personal conversations with members of every field of real estate, who all cared about my career, and wanted to give me good advice.
