The Book Of Runes: A Handbook For The Use Of An Ancient Oracle: The Viking Runes With Stones: 10th Anniversary Edition

Synopsis

You are holding something very special: a part of the ancient past and, perhaps, a part of your future. Based on a tradition over one thousand years old, this contemporary Oracle has established itself as a remarkable aid in practical decision making. When first published in 1983, R. Buckminster Fuller said: "What a wonderful thing to have done-midwife the rebirth of an ancient oracle." A huge success with over 700,000 copies sold, The Book of Runes has proved itself to be a modern classic. For this, the tenth anniversary of the work, Ralph H. Blum has expanded and refined the runic system, making the Runes the most profoundly useful self-help tool of our era.

"The Runes are one of the world's greatest spiritual resources. They always speak to us from the depths of our own hearts." --Marianne Williamson, author of A Return to Love "A guidepost for our dark and troubled times." --Seattle Times "Its wisdom is remarkable." --San Francisco Chronicle

Cultural anthropologist, writer, and publisher Ralph H. Blum has been working with and teaching the Viking Runes as a tool for self-counseling since 1977.

Used this book at a many friend's houses and loved it. So I decided to buy it. I WAS MISLEAD! And pleasantly surprised. Turns out, this book comes in a box with 1 set of runes and a rune satchel. See my photos. I was very surprised. I was only expecting a book.

I had received this book (that comes with a set of runes) as a gift a few years ago and loved it. I recently ordered the same for my grand daughter and sent it to her. She is thrilled with it. .We both find consulting the runes helps to get us out of our heads and all its mind chatter. It's a wonderful tool for restoring calm, quiet contemplation and heeding a guidance not driven by fear and ego.

Love casting me bones

It came earlier than expected and was exactly as described; my daughter loved the gift. The only thing left is to see if she can use them to untangle the messy world of choices she lives in.

Great book! Ive had one for over 15 years and lost it, nice to have the 25th anniversary version. easy to read, easy to understand, easy to get started and put the runes to fast use!

Great book, very informative and simple. Gives some good background history on the subject, and even comes with a set of runes.

interesting if you have a curiosity like my own. Not convinced of the validity of the ruin explanations though.

This is a good book for explaining about the runes and how to read them. Great buy.
