## **Customer Reviews**

When I first wrote *Successful Small-Scale Farming* eleven years ago, writes Karl Schwenke in the preface to this new edition, "an 'organic farmer' was synonymous with a 'lonely hippie troublemaker.' Today he is classed somewhere between a high-priced elitist and an opportunistic liar." So begins this classic guide to organic small-scale agriculture, fully updated and revised for the 1990s -- for a new generation of readers who would like to live closer to the earth. *Successful Small-Scale Farming* introduces anyone owning (or planning to own) a small farm to both the harsh realities and the real potential involved in making a full- or part-time living on the land. Karl Schwenke's clear-eyed approach to the best farming methods covers a wide range of proven techniques and practical advice, including: \* How to improve, conserve, and enrich your soil organically, to ensure the highest (and healthiest) yields. \* What machinery you'll need and how to use it. \* The best "cash crops" and specialty crops to grow for profit and how to raise them. \* How to use innovative strategies to find or create a market "niche" for your farm's crops or services. \* A concise overview of essential farmstead skills, such as haying, fencing, and managing a woodlot. \* Numerous charts and tables that put useful calculations at your fingertips. With today's increased concern for the quality of the food we eat and the health of our environment, *Successful Small-Scale Farming* offers a unique and invaluable perspective on the future of agriculture. Karl Schwenke's message -- that small-scale farms can be cleaner, smarter, and more efficient than corporate agribusiness -- has never been so relevant as it is today.

Karl Schwenke is a professional writer who lives with wife Sue on a farm in Newbury, Vermont, where they have raised strawberries, pigs and hay among other crops. Together, this couple has written the book *Build Your Own Stone House*, and Karl wrote the Storey title *Successful Small-Scale Farming*. His other work includes *Sierra North* and *Sierra South* from Wilderness Press, an organization in Berkeley, California, that he co-founded after graduating from college. Karl has

also written In a Pig's Eye (Chelsea Green Publishing).
