Loose Leaf For General, Organic, And Biochemistry (WCB Chemistry)

Synopsis

The ninth edition of General, Organic, and Biochemistry is designed to help undergraduate health-related majors, and students of all other majors, understand key concepts and appreciate the significant connections between chemistry, health, disease, and the treatment of disease. This text continues to strike a balance between theoretical and practical chemistry, while emphasizing material that is unique to health-related studies. The text has been written at a level intended for students whose professional goals do not include a mastery of chemistry, but for whom an understanding of the principles and practice of chemistry is a necessity. Designed for the one- or two-semester course, this text has an easy-to-follow problem-solving pedagogy, vivid illustrations, and engaging applications.

Book Information

Series: WCB Chemistry

Loose Leaf: 944 pages

Publisher: McGraw-Hill Education; 9 edition (January 7, 2016)

Language: English

ISBN-10: 1259678946

ISBN-13: 978-1259678943

Product Dimensions: 8.8 x 1.3 x 10.9 inches

Shipping Weight: 3.9 pounds (View shipping rates and policies)

Customer Reviews

Joe Topping currently is a professor of analytical chemistry at Towson State University. He did his post-doc at Iowa State University in Ames. At Towson, he has been honored with such awards as the "Outstanding Faculty Award" and the "Faculty Merit Award". He has written ancillaries for an outstanding text, Atkins - General Chemistry and is heavily involved with the American Chemical Society. Kate Denniston is a biochemist in the Biology Dept. of Towson State University. At Towson, she has been honored with such awards as the "Outstanding Faculty Award" and the "Faculty Merit Award". Her previous employment record is literally a list of some of the best

biochemistry institutions in the world: Univ. of Wisconsin as a post-doc, Georgetown University School of Medicine Â as research professor, National Cancer Institute as a Senior Staff Fellow, the Argonne National laboratory in their research program, and as an Invited Instructor by the European Molecular Biology Organization. Â She has written for such noteworthy publications as Nature, Science. Â
