We found these really cool maps that fold down to 3"x3"... for Rome, Venice, and Florence. They are called Pocket-Pilot maps (www.pocket-pilot.info). They are jammed with informative street maps, sites, transportation, etc. yet they are so small they are not cumbersome at all to carry around. And they are laminated.

This is perhaps THE pocket travel map for Las Vegas, and I suspect the other guides in this line are just as excellent. Keep in mind that this guide is very pocket, measuring just under 4 by 3 inches square. PROS: -Small, without being too small. It really does fit in a pocket, yet it unfolds to a reasonable size to cover the entire area from the strip to downtown to way out past the airport. -Durable. The lamination is great, and even after a week of frequent use and being jammed

into purses and pockets and pulled out in moving buses, it still looked brand new.-Detailed. The map itself is great quality, with all the casino names and major points of interest having clear labels on the map itself. The back is crammed full with footnotes pointing out everything from where to eat, to what to expect at the Atomic Testing Museum.-Cheap. You can grab a copy for just a couple bucks, as of writing.CONS:-Keeping in mind the form factor, there are no major cons.This isn't really an all-around travel book intended to help you plan a whole vacation, but it is perfect as a quick-reference street map and guide. Can't remember where a specific casino destination is? Pop this little guy open, and you're to your information in seconds. Can't figure out where to go tonight? Do a quick scan for nearby points of interest. It's vastly more convenient than packing a full-sized roadmap without losing the important detail, and much less cumbersome than any full travel guide if you need a quick idea of where you are on a late-night trip up the strip. And with the great lamination, you can always jot down some notes with a dry-erase marker anytime you feel the need. What more could you possibly ask for in a little guide like this?If one of these Pocket-Pilot guides is available for wherever you're taking your next vacation, get it immediately. I can't recommend it highly enough, and I do recommend it to all my friends. I managed to miss my stop downtown late one night taking the bus, but I had nothing to fear as I knew I had this little guide handy, when I'm normally never the type to carry a cumbersome map or guide book with me. Hey, even if you have a GPS, you can't deny the comfort of a hard copy that isn't limited by coverage. I could sit back, relax, and know exactly where I was headed and how long it was taking to get there. This guide paid for itself a hundred times over right then.
