Creepy True Stories Of The World's Most Haunted Evil Dolls...Claim Your FREE Bonuses After the Conclusion! Traditionally speaking, a doll is defined as "a model of a human being." The presence and use of dolls dates back to ancient civilizations, including Egypt, Greece and Rome. Around 100 AD, dolls became associated with children, and were used as toys in ancient Greece. These dolls were often crafted out of rudimentary materials—scraps from whatever materials were at hand. By the turn of the 20th Century, dolls were not only a common sight in households, but many people made it a point to begin collecting them. Today, dolls of various shapes, sizes, and materials grace the shelves of expensive boutiques, as well as local convenience stores. But not all dolls are created equally. And some have proven to be deadly... However, sometimes a person does not intentionally trap a human soul into the confines of a doll. Sometimes such a thing is done by accident... While there are many dolls in the world that people claim to be haunted, there are some cases that are impossible to ignore. These dolls have not only been seen moving on their own—they have also caused bodily harm to others... Here Is A Preview Of What's Inside... I was so excited when I went to my mailbox today and I got my haunted dolls book!!! The book is light and has no pictures. I love short stories. The book arrived quickly. No damage. I will order books from this author again!!!

Otherwise, for me, this is my third or so haunted dolls book, (because something about a doll being alive scares the crap out of me!) and if you've read as many as I have, the stories start to become redundant. I've heard most of these stories in this book so for me it was hard to get through. But for those who have NOT read any haunted doll books, these are truly some bizarre and creepy tales for sure!

Creepy stories about haunted dolls. I saw one of these on a tv show, The Haunted Collector. I do believe that evil can go into a doll.

Kind of creepy but fun to read. I knew about Annabelle but not Robert. Short stories.

Very good book kept me interested all the way till the end!

Very interesting! Not what I had initially expected but was happy with it in despite of this. Unnerving content, but extremely fascinating!

Really good!! Just wished it was longer...

“Haunted Dolls: Creepy True Stories of The World’s Most Evil Haunted Dolls” by Roger P. Mills is a fascinating and haunting exploration the paranormal activity, that goes beyond common toys used in childhood play. Mill is a non-fiction author that specializes in the subject matter of paranormal activity/psychic phenomenon, and conspiracy theories, he lives in Romania. The dolls that we know in modern times mostly children’s toys and adult collector items found in private homes and museums began in the 19th and 20th centuries. Doll were manufactured for sale in Germany in the 15th century, before that dolls constructed of a variety of materials dated back to ancient Egypt, Rome and Greece. Many of the dolls in this book have unknown origins that raise questions concerning the mystery of the unseen unexplained supernatural dimension. The stories take place at various locations throughout the world: (in addition to the U.S.)

from Australia, British Columbia, England. Stories involving demonic possession and voodoo curses are among the most frightening, some dolls have been known to physically attack people. It was believed spirits of the departed could enter the dolls somehow: these dolls are widely known by their first names: Peggy, Robert, Anabelle, Mandy. The Janesville, MN. doll. Dolls have been reported to move from their original position to another, facial features can frightfully change: eyes move/blink, heads turn, limbs move. Sounds are heard including crying at night. Some dolls receive fan mail and visitors! One doll was observed in a museum by paranormal investigators and numerous followers online by webcam. Mills reports a detailed study-- complete with data, timestamp, and the images that appeared in ghostly form on camera, and the unexplained activity measured on equipment, phones, computers etc. by scores of observers. Another doll kept returning to its owner, despite the terrified owner's attempt to find her another home. The stories are truthful, credible, descriptive and well written. There are cited references to books, documentaries, films and TV shows. ~ Special thanks and appreciation to the author for the DRC for the purpose of review. The audio version of this book is highly recommended.
