The Red Cobra (James Ryker Book 1)

Synopsis

The Red Cobra: an action packed and utterly gripping thriller from the best-selling author of The Enemy Series. Carl Logan dedicated nearly twenty years of his life to the Joint Intelligence Agency. Now living in a secret location, under the new identity of James Ryker, he wants nothing more than to be left alone, the chance to start a new life away from chaos, violence, destruction and deceit. It's not long, however, before Ryker's short-lived idyll is destroyed when he is tracked down by Peter Winter, his ex-boss at the JIA. Winter brings with him news of the murder of a woman in Spain, Kim Walker, whose fingerprints match those of one of Ryker's former adversaries who's been missing presumed dead for years - an infamous female assassin known as the Red Cobra. A cyberattack at the JIA led to the Red Cobra's profile being compromised, and Winter believes JIA agents may now be at risk too, Ryker included. But Ryker knew the elusive Red Cobra better than anyone, and when he sees the grisly pictures of Kim Walker's corpse, he has news for Winter - she isn't the assassin at all ... So just who is the mystery dead woman? And where is the real Red Cobra? The Red Cobra is a fast-paced thriller filled with twists and turns and intrigue that will appeal to readers of big-hitting thrillers by the likes of Lee Child and David Baldacci, and with echoes in its plotting and breadth of the globe-trotting spy thriller I Am Pilgrim. Rob Sinclair is the author of the highly-acclaimed and bestselling Enemy series of espionage thrillers featuring Carl Logan. The Red Cobra is the first instalment in his explosive new James Ryker series. Rob is also the author of the stand-alone thriller, Dark Fragments. Also now available in the James Ryker Series: The Black Hornet

Customer Reviews

An enjoyable beach read - I read it on an airplane. Interesting concept and worth reading but not of the same caliber as a Jack Reacher or Vince Flynn novel.

Just when I thought that Rob Sinclair couldn't improve on the excellent Enemy Series, he proved me wrong by writing Red Cobra. What an exciting and fast paced book that grabs you immediately! Carl Logan has gone underground with his love, Lisa, and his new identity is as James Ryker. He is still the same man as before but not as rough and tough but still is a "bad boy" in many aspects. He is found by his previous employer and has to find the Red Cobra and kill her for the good of the country. We get to know the Red Cobra very well and become very sympathetic to her. Ryker has a hard time forgetting their previous affair, which ended badly. There are other characters involved and some you will like and others you will hate but all are integral to the plotline. Never a dull moment. Shocking cliffhanger. Outstanding spy thriller, which will no doubt be made into a huge movie! Loved it!! If you can, please read the first three novels to better understand Ryker but it is not necessary to this book. You will want to read them afterwards regardless.

I am a huge fan of this genre ("Thrillers"), but this is one of the best I've read. The characters are all believable and "human". Ryker is not a "superhero", but a real person. I also like the fact that it is a "whodunit" inside of a thriller. The "Red Cobra" is dead. Or is she? Can Ryker really trust his boss? Who is really behind the conspiracy he uncovers. I finished and ordered the "Black Hornet" immediately.

Great read, my first with this author. I like detective mysteries, it only got four stars because, it seemed unnecessarily gruesome in spots, maybe it's a guy thing. Not usually squeamish but some descriptions were very graphic and didn't necessarily add to the otherwise well written story, with both an interesting twist and a good lead into the next one in the series.

This book was another one of Rob Sinclair thrillers, and I must say that with each of his books I read seem to get harder to put down. He certainly has a way of writing that keeps you wanting to know what's going to happen next. I have certainly enjoyed reading his books and plan to read more. I will also recommend him to my family and friends. Keep up the good work Rob Sinclair!!!!

Good action thriller the twists and change of pace keep your interest. The assassin's need to make peace with never being normal, the both desired and despised is a familiar theme but something about the lack of polish or constant expected tying of loose ends with jagged edges gave it a different feel. I'm trying book 2

A good read with action and a couple of unexpected twists at the end. The ending obviously sets up a sequel. The reason for only four stars is that the reasons why Ryker is ordered to kill the Red Cobra are never satisfactorily explained. Maybe in the sequel? I will buy and read the sequel.

This is the second book I've read from this author and I found I like the action and how the story keeps you guessing and wanting to keep on reading. I like the way the plot is developed and the many twists and turns it takes. Will definitely read more by this author
