METTLE: A Spartan Riders Novel

Synopsis

Talia McKinnon said goodbye to love the day she signed the divorce papers and moved across the country looking for a fresh start. With work occupying her days and nights, a relationship is the last thing on her mind, until a run-in with a hot-as-Hades, leather clad biker changes her mind.

HeÃ¢â¬s everything she shouldnÃ¢â¬t want but has to have. The problem is, heÃ¢â¬s not that easy to catch. Tucker Ã¢â¬CountryÃ¢â¬ Abrams believes in two things: brotherhood and women. He takes his job seriously and his women hard, but at the end of the day, the only loyalty he has is to his club. So when a night with a beautiful stranger threatens to change everything, heÃ¢â¬s quick to apply the brakes. But when a little detective work reveals that Talia may be much more than a one-night stand, Tucker is tasked with an impossible decision. Will he push her away, or go against every instinct he has and pull her closer?

I am so in love with this group of people. I have to admit I am not a big fan of MC romances. I have read a few and I can take them or leave them. I borrowed Grit from KU. After the first couple of chapters, I bought it and Mettle. I was sucked in and in love before I knew it. So please please do some more on the Spartans. I need more of this MC.

This was a great read. I loved all the spunk of the characters involved. The storyline took you one place then another and kept moving the excitement. There were several times I thought, I did not see that coming at all! That makes a great read for me when an author can take you along and throw in those curveballs and enhance the storyline with a punch and this one is packed full.

This book was so amazing, I didn't want it to end. This is definitely a must read Even though you could probably read this as a standalone, I would recommend reading the first book in the series first. Loved it.

Another winner in this series of books. So far two out of two good books. Hoping that there will be additional books in this series. Very enjoyable and exciting. Keeps your attention and keeps you engaged.

It was a great read. This is going to be a great series to follow. It has great characters and a story line that more than hold your interest till the end.

In "Grit" the first Spartan Riders series, Tucker "Country" Abrams was a force to be reckoned with. He's sexy and hot as hell, and never gets attached to any one woman. Well, that is until he meets his match in the tough and beautiful Talia Mckinnon. Talia is an FBI agent working undercover trying to locate missing women being sold into human trafficking. After hooking up with Country and getting to know the club members, she's no longer sure they're involved. Ricki Cruz, the sadistic madman comes after Gabby again. Country will do anything to protect his club and Blake's family. Even if it means taking on the enemy single handed. To protect Country, Talia is the one who sends Cruz to hell. Country's story was not as intense as Blake's, but still a great read. Ms. Valentine did it again. She ended the story with so many questions!! How is Bambi going to fit in the club? What threat is the dirty FBI agent going to be to the club? I hope the next book is Repo and Ginger's story.... hint, hint :)

Mettle is book two of the Spartan Riders series. I do not recommend this without reading Grit book one. J.C. Valentine captures the motorcycle family like no other. I love this motorcycle club with their loyalty to brotherhood and respect of each other. These men are rough around the edges until they fall for their women then we see the tenderness shine through. The protectiveness that these men surround their loved ones with is fierce. Talia has left her past across the country and is ready to put her work first and one night stands second. The only relationship she is completely committed to is her job and starting fresh in a new town. Tucker aka Country is the Sergeant of Arms for the Spartans and has never met a woman worthy of wearing his patch. He takes his women hard and knows exactly what it takes to please them then send them on their way. Talia is sassy and confident but a challenge for Tuck. They are explosive together both in and out of bed. Tuck might be the one Talia can fall for but she's holding something back. Talia could be it for Tuck if he can trust her enough to let her into his world. Ms. Valentine gives us a fantastic story in Mettle. We also catch up with the Prez and Gabby and Ash along with glimpses of the other brawn and muscle that are the Spartans. There were parts that had me on the edge of my seat. I look forward to reading the next installment of these sexy, loyal Riders.

4 sugar stars Another brilliant read by JC Valentine and another great love story surrounding the Spartan Riders MC. Great characters, Country otherwise known as Tucker and Sargent in Arms is a hot straight talking biker and like any other MC member a one night kinda guy, not wanting to settle down and loves the single lifestyle, until he meets his match with Talia. Talia is undercover FBI and doesn't back down in any argument, feisty and everything Tucker wants in a woman. Sent in to get close to the MC undercover as they work on a case regarding women trafficking. What the FBI didn't realise was they are both although opposite sides of the law, are looking to end the same thing. Lies, deceipt, hot moments, exciting angst surrounding another swoon worthy biker. Blake and Gabby are still in this book along with other members of the MC. The Spartan Riders are the kind of good guys in the mc world. I loved their banter and humor with each other their closeness and family ties as brothers. There's no heavy drama or unnecessary violence just a great plot leading to a hea. A steady read Told in dual pov's, the second book in the series and definitely a series I want to follow. looking forward to more in the series
