## Customer Reviews

This book allowed me to experience Seoul in its entirety. I have read plenty of travel guides but this one stands out the most and is by far the best. Simply amazing!

Seoul is a beautiful city and is often overlooked by tourist that prefer japan as it seems to be more cultural renowned in the west as a must see, thanks largely to Hollywood. But Korea is also amazing and beautiful place in its own right. I like this guide in great in that it is straight forward no jazz and no advertisement for tourist places or place to eat. Travel guides have really gone downhill in the last years, probably because of the internet. This book is really great, as its actually practical.

I love the way this travel book is organized! It gives a nice little summary of each place to get you to feel where your going to visit. The guide gives detailed outline of historical sites and interesting attractions as well as how best to get around from place to place and staying safe on your visit there.

All you need to know for Seoul, packed in one place! Super easy to read and very informative!  
Highly Recommended!

I bought this book because I'm going to travel to Korea, Seoul next month and was in search of a good city guide. This book is small but has got all the basic information I'm going to need while I'm there. I highly recommend it!!!

This book is 38 pages of large print fairly generic information about Seoul. It is more of a pamphlet than a book. It would be OK if it was something handed out at the visitor's information desk, but it is nowhere near what you would expect from a travel book.- 1 hotel recommendation (and 2 airbnb)- No restaurant recommendations- No mapsI bought this book based on the predominance of 5 star reviews. However, since there are only 22 reviews on this book, I guess I should have been suspicious of their validity. I will be returning this book. Buyer beware!

Has to be the worst travel book I've ever purchased. No photos, no meat to this travel guide. Save your money and find something else. Not sure why all the great reviews from other readers(I doubt the 4/5 star reviews are legit) This was a gift for a friend but I'm putting it in the trash.

This is seriously bare bones information. Worth \$2 maybe. I feel stupid for falling for the 5 star reviews.
