Byron Barton is the creator of many picture books for young children, including *My Car*, *Building a House*, and *Little Red Hen*. Byron Barton is the creator of many picture books for young children, including *My Car*, *Building a House*, and *Little Red Hen*.

Byron Barton is my son's favorite author and his series of transportation books is wonderful. Beautiful illustrations that capture the imagination paired with a toddler's favorite subject.

This is a good book to introduce informative text to students. I love the simplicity!

We love Byron Barton board books. My 22 month old son especially loves the *Planes* book and the *Trains* book. He is now starting to like this *Boats* book and is understanding all the different types

of boats.

My 2 year old is crazy about this book. Simple pictures. Lot of information. Clear thoughts. This is his favorite book along with the other Byron Barton books - planes and train!!!!

Little guy loves these books. Great board books with catchy wording. Short enough to read a couple a bed time but long enough to be interesting.

I bought this for my 20-month old son at the same time I bought three other Byron Barton books ("My Car", "Trains", and "Machines at Work"). This is the least often requested of the four, but my son still enjoys it. In fact, these four books are his four favorite books. The book is typical Byron Barton...bright, colorful pictures and a basic, sensible story. The only reason I think my son doesn't enjoy it as much as the other books is that he has not had any exposure to boats outside of this book. Like I said, though, he still seems to really like it!

My four year old has a ton of books, he loves books and being read to but rarely have I seen him so interested in a particular book. He really loves this book, we read it to him three times last night and afterwards he thumbed through it for a half hour or so. The pictures are nice, the text is simple and the book is very captivating for a child. It seems like a good book to start teaching words and reading with. Happy with this purchase. The book is thick card board and sturdy too. I think I'll buy the "Trains" one next.

My toddler class looses at it all the time
