Pastimes: The Context Of Contemporary Leisure

Synopsis

An introductory text that gathers together state of the art information in leisure science and practice, reflecting a wide range of literature from the disciplines of sociology. psychology. economics. political science, and anthropology. More than a text that teaches the foundational meanings and roles of leisure. Pastimes is also a point of view. This text presents leisure as a human phenomenon that is individual and collective, vital for survival, frivolous, historical, contemporary, good, and bad. Pastimes, 3rd Edition continues with its contemporary introduction to leisure, while emphasizing new concepts. This edition contains two new chapters, and includes more illustrations of concepts through field-based case studies, research studies, biographical features, definitions, and photographs. Material is more personally relevant with exploratory activities and applications to professional practice.

Customer Reviews

Ruth V. Russell, Ph.D. is a professor of recreation at Indiana University in Bloomington. She lectures and writes widely about many subjects, with a current emphasis on the cultural implications of leisure, as well as about leisure as a humanities concept. As a university professor for 27 years she counts as her greatest achievement enabling students to embrace statistics as an important professional tool. For fun, her leisure passions are reading, boating, trekking, and camping.

Im not sure who this was for, but as a text it seemed to be written for jocks looking to blow off for three credit hours. Thin and poorly written, not a text I would want to assign to students actually

looking to learn.
