God Couldn't Have Done It Without Africa: Earth's Final Great Awakening

Synopsis

Why are all of the maps in the back of the Bible zoomed in so close that you can't tell that 99% of the stories take place in Africa and Arabia? Starting in Genesis, we are introduced to a utopian garden planted on the east of Eden. We are then told that one of the rivers of Eden flows through Ethiopia, and yet many of us often overlook this fact. By the time we reach Genesis 10, we learn that Nimrod, a Cushite from Africa, founded Babel to become the very first world leader. It is from within this Cushite empire that Abraham is called to be a great nation. When we consider that many of the patriarchs took African women as wives, it becomes clear that mainstream Christianity is not giving us the complete story. Abraham, Esau, Joseph, Judah, Moses, David, Solomon, and many others all had wives of African descent, and yet the narrative of a white Israel spending 400 years as slaves in the African heat, still prevails in our society. This journey into scripture promises to be one of the most eye opening adventures you've ever embarked on, and it is guaranteed to change your entire perception of history and scripture in general. Customer Reviews

Truth is Truth and this author does an excellent job of articulating and decoding scripture based on scripture, genealogy and geography. Totally unbiased and factual. A must read for truth seekers.

One of the best books I've ever read

Love this Guy

I believe that many would define the presented information as controversial. I found the information to be sound, well supported, and worthy of wide exposure. I will undoubtedly, reread and refer to this text numerous times. I recommend it.

very interesting

Wow!

I found the format for introduction of the material the best part of the book - an hypothesis followed by independent collaboration that demands a counter-argument be based in sound verifiable evidence to the contrary - that is nearly impossible. I feel this author attempts to provide a gentle landing for centuries of blatant lies that have wrought absolute destruction and de-humanization of people of African descent - that do not deserve a soft landing but harsh condemnation and worse. Will this work convince those steeped in the worship of "whiteness" their self-serving lies and delusion only delay embracing the horror of the truth - I doubt it - where Scripture collides with lies it is Scripture that is questioned with smug rabid intensity. So. No. That begat in darkness remains in darkness.

I now have a better understanding about the ethnicity of most of the characters of the Bible. It's so amazing that out of Noah comes three and more different nationalities.
