She lives in West Wales, where she spends as much time as possible exploring ancient sites on moorlands and the coast.

I like this calendar - the pictures are good - I just wish they would come out with a calendar that is just standing stones & ancient prehistoric stone sites, instead of mixing up the pictures with much

later historic sites.

This calendar is filled with great photographs and lots of history and information to go with them. It seems to have a good amount of holidays, both religious and U.S. national, and it includes the phases of the moon.

I really like this calendar. Some of the sites I have seen and some I haven't. Information on them is really very well done as a side bar. Special dates are noted daily for many religions and astrological information. Well done.

Over the years I have always had one main calendar that centered around England and its history. Usually, they were towns, churches, etc. This time I stretched it out to more Celtic in origin. Great Calendar

and places I hope to visit. I am a huge fan of Freeman's work. Highly recommended. In fact, I bought a few more to give as gifts.

I love this calendar. It is a perfect fit for me. The images are beautiful and would be suitable for framing when the year is over. Plentiful moon and holiday notations.

A very nicely printed and published collection of photos to remind you, during 2014, that the Earth has been around for a very, very long time.

Love this calendar! They have chosen interesting and quite lovely pictures, and the text is well done. They also show a variety of holidays, which I like.
