Customer Reviews

I enjoy the book very much & have made 2 recipes from it.

Interesting information!

I love this recipe book. I got it for free when there was a promotion. I highly recommend if you want something that is comprehensive in using those roses!

Informative. Made me realize the full benefits of Rose, and each part has different distinction..depending on what one is looking for.

I picked some wild rose hips last time I camped. Going again tonight, will gather more. Will make great gifts for my "nature" loving friends.

The content of the book is wonderful. Thank you.

Nice, informative and lots of good ideas
