National Geographic Kids Almanac 2011 (National Geographic Kids Almanac (Quality))

Synopsis

Dare to explore! The National Geographic Kids Almanac 2011 brings young readers the very latest updates on living on, and caring for, planet Earth. The Almanac's cool photos, lively illustrations and easy-to-read format encourages readers to absorb countless incredible facts and spend hours browsing hot topics, such as fun ways to convince your family to go green. In true National Geographic Kids magazine style, this is a book to excite kids about their planet: its fun-filled pages are packed with everything from how to decode your dreams to the excitement of underwater pumpkin carving to the fascinating powers of the human brain. Geography, history, science, and adventure—it's all here to explore in one single volume. This is the reference book that gives young minds MORE... More than 15 homework-helper sections More than 50 puzzles, projects, and really cool experiments More than 500 pictures of our planet and all that's on it More than 5,000 fun and amazing facts The opening section introduces timely information for 2011 and unique National Geographic content. The rest of the Almanac is filled with fun facts and helpful references on subjects from countries worldwide to Presidents stateside, from the wisdom of convention to cool new inventions.

Customer Reviews

Purchased this for my niece. She reads all these almanacs cover to cover, over and over again.

These are great ideas for christmas or birthdays - hours of fun for the kids in your life.

This is another excellent publication by National Geographic. It is full of interesting and fun facts that children and adults love. This is a very educational book that helps children and adults learn about interesting and historical people complete with 500 incredible photos. It also contains games, puzzles, homework help and answers to all of these as well! It begins with a "Stump Your Parent" page that engages young people and makes it a group reading exercise that is interesting and educational for all ages. This little book encourages children of all levels. Younger children love the pictures and the stories that go with them and older children become interested enough to want to search the internet for more information! I recommend this book to all parents and teachers who are willing to spend 10 minutes a day on a topic in this almanac starting with President Obama as the first African American President in the section labeled "Your World 2010," and including other sections that include: Awesome Adventures, Amazing Animals, Culture Connection, Geography Rocks, Going Green, History Happens, Wonders of Nature, and Super Science. A National Geographic Kids Almanac 2010

Exactly as described and in excellent condition!

These are the best! My 8 year old son loves the almanacs! There are so many times that we are going somewhere and he starts telling me some random fact and I ask where he gets it and it's always "my almanacs!"

Gift for 6 year old grandson. He loves these almanacs.

I bought this for my 7 year old. She loves to read magazines and graphic novels but is not so much into chapter books just yet. She reads it at the dinner table and asks us trivia questions from it. The pictures are absolutely beautiful and everything you would expect from National Geographic.

I bought this book for my niece & was reluctant to give it to her when I saw how readable it was & full of interesting bits of trivia. She likes it too. I enjoyed it so much I bought 3 more copies to give as gifts during the holidays. Teachers should find this a wonderful addition to the classroom. Love this book!

I love this book, even though my son is only 3 years old, and cannot take full advantage of all the information it has to offer, it is a good practice for him in terms of getting to know new animals and recognize the ones that he already knows, it has a little bit of everything, I even read it myself, great purchase!!!
