Age Range: 5 - 6 years

Grade Level: Kindergarten and up

Customer Reviews

I purchased the multiplication cards in this same brand, which we have used daily for a couple months now and they held up well. I anticipate these doing just as well, they are just as sturdy. And just as another reviewer said, my son was not too excited to see them in the mail!

Son enjoys them

I haven't used them yet, but sure they are good. But my daughter was NOT happy to see them in the mail. LOL

These are a little larger than some flash cards and easier to handle.

Exactly as described, quick delivery time.

As a teacher I love these cards. Inexpensive and complete deck through 12 family. Would highly recommend. These were cheaper than the curriculum version and just as valuable.

Love love love great way to help daughter with math!! Easy to understand and they are working great! don't know what else to say but I would buy it again!

I also have these flash cards in addition and subtraction. The addition and subtraction cards have held up well to daily classroom use. I have no doubt these will do the same.
