# Who Was Frida Kahlo? (Who Was?)

## Synopsis

You can always recognize a painting by Kahlo because she is in nearly all--with her black braided hair and colorful Mexican outfits. A brave woman who was an invalid most of her life, she transformed herself into a living work of art. As famous for her self-portraits and haunting imagery as she was for her marriage to another famous artist, Diego Rivera, this strong and courageous painter was inspired by the ancient culture and history of her beloved homeland, Mexico. Her paintings continue to inform and inspire popular culture around the world. From the Trade Paperback edition.

## Customer Reviews

it does have a few nude drawings in it. my daughter was very embarrassed by that. I would think they would've left that out for young readers.

My daughter is fascinated with Frida Kahlo so this is the perfect birthday present for her!

This book is excellent. I thoroughly enjoyed reading it to my second graders.

Excellent book. My daughter loved it and because she had read this on her own, it ended up being extremely useful later in school when the students were asked to do an impromptu assignment on an artist from the past.

I am from Mexico and I introduce this book to my daughter 3er greater, she really love it, it's perfect for her age I highly recommend it. I promise to her on our next visit to Mexico we will go to see La casa azul!!

The "Who Was" Books are the perfect read for kids, but I love them as an art teacher. I only see my students once a week, and like to give them a juicy detail about the artist we are studying. These books are a super quick review for me, and give me great information to teach.

Very informative, and was in an age appropriate format for my 7 yr old.

Great job of telling her story. Very appropriate for my 8 old daughter. We find the whole series very educational.
