Talent Is Never Enough: Discover The Choices That Will Take You Beyond Your Talent

Synopsis

People everywhere are proving leadership expert John C. Maxwell right - that talent is never enough. Read the headlines, watch the highlights, or just step out your front door. Some talented people reach their full potential, while others self-destruct or remain trapped in mediocrity. What makes the difference? Maxwell, the go-to guru for business professionals across the globe, insists that the choices people make - not merely the talent they inherit - propel them to greatness. It is what you add to your talent that makes the greatest difference. With authentic examples and time-tested wisdom, Maxwell shares 13 attributes you need to maximize your potential and live the life of your dreams.

Customer Reviews

Looking at recent world events I can't agree more, everyday there are more shocking revelations of companies collapsing not considering the fact that these same companies attract the best minds money can buy in the market; the likes of Enron John C Maxwell outlines some of the most important ingredients to success of individuals and corporations with precision making it very readable and understandable to even one who is not an avid reader. I am intrigued at the way he reveals this information with minimal effort; the language is simple, clear and very easy to comprehend. It is not surprising that he simply is my favorite and preferred management and self help author. I therefore encourage you to read this book as you won't remain the same. I would pay the world to acquire additional copies of his other work! Arthur KALIISA

I have just finished one of the greatest books written for people with talent by John Maxwell. "Talent is never enough." I want to encourage all of you to read this book. This has been one of the best reads of my life. Here is a great quote and then a summary of the 13 areas that add to our talent. I challenge each of you to do this exercise, it will build the team you are a part of. "For the next two weeks, make a commitment to yourself to take no credit for anything that goes right. Praise your employees, co-workers, colleagues, and family members for their contributions. Note the difference it makes in their performance and your relationship with them. I believe that once you've tired it, you will enjoy giving the credit away so much that it will become a regular part of your life."1. Belief lifts my talent.2. Passion energizes my talent.3. Initiative activates my talent4. Focus directs my talent.5. Preparation positions my talent.6. Practice sharpens my talent.7. Perseverance sustains my talent.8. Courage tests my talent.9. Teachability expands my talent.10. Character protects my talent.11. Relationships influence my talent.12. Responsibility strengthens my talent.13. Teamwork multiplies my talent.As a team, my hope is that we can help each other grow to new heights daily. Adopt one of these and work on them daily. For me, courage and Perseverance have been a weakness of mine, however, after reading this book I feel like these two weaknesses will turn into great strengths.

I have found this book to be so very helpful. It's basic approach to enabling and encouraging believe in self is absolutely great; and the work book by the same title is a must.

This was an excellent book for anyone needing motivation for going back to school with a family and a full-time job. I believe in our society today we expect too many 'atta boys and hand outs for nothing. This society, along with following the suggestions set by this author to get ahead and overcome the fallacies in your own life that may be preventing you from being all you could become, could move you to one day becoming that person you desire and seek to be. The 'he did it and you can too' stories get a bit long and sometimes too frequent, but besides that it is a good read.

I liked this book very much mostly because we are living in era of leadership crisis were media triviality is shaping mankind and where ego is put at first place.

I bought this for my sister and ended up keeping it after I read the first chapter. It was a great way for me to focus in on my talents and what I am good at. I like the self exploration it was an eye opener. I have my executive summary and its is so far fetched, that it will take God to make it

happen. So its up to you God!!! wait for your grace and mercy

When in Exodus 31, God fills Bazalel with His spirit, He also fills him with instructions of how to carry out his work along with help. Author John Maxwell is able to share insight and thought provoking points to the individual whose life crosses into the talent arena. He shares this with an ability to encourage and inform. For the speaker, builder, painter, and all disciplines.

This has always been one of my favorite books. It's not so much life changing as it is motivational and reminds you to stay on track and why. I have been in the business world for a while and I think this book to give college age adults too....
