Customer Reviews

Just what my grandson needed.

I used this book back when I was just a teenager learning to play the Baritone. Well over a decade later, I've decided to pick up the baritone again, and what better way to relearn than a familiar book? It is a great book, starts out at the very bottom and builds from there. Fully recommended for beginners.

I knew what to expect and received exactly what I needed.

great beginners book, just what I needed.thank you so very much

The gold standard for beginning band students. The book is an excellent choice for beginners. I was very pleased with the shipping time and the book was in excellent/new condition.

Just what I ordered. Great way to get books the kids need for school

good

This is an excellent book for beginners, or those trying to re-learn the instrument. It gives excellent introductions to notes and reading music, and builds up well with practice exercises. I would definitely recommend this book.
