Tantric sex is a spiritual practice, like yoga and meditation. The real final goal is not pleasure. Tantra tried using sexuality to liberate our ego, so that we can better connect with a loved one. Ultimately, tantra helps in gaining self-awareness and acceptance of themselves the way they are and the increasing openness to spiritual development. In this book you will learn all about Tantric sex. The

book is useful for both men and women. Recommendations to anyone who wants to improve the relationship with their sex partner.

I've read quite a few sex books as of late as I wish to spice up my sex life, and this book is perfect! There are some very interesting techniques in here, and one I know I'd like to try out is the pompoir, one of the last ones in here. This is the book that I've read on tantric sex. I loved how this book is very actionable and easy to digest. I highly recommend for anyone interested about tantric sex. I will definitely come back to this book over and over again.

I wanted to add that extra oomph to my sex life and this book revealed a whole lot of new information about the world of tantric sex. I would love to try all the new techniques that I have learnt in this book with my partner, specially the technique called pompoir. Tantric sex is all about pleasing your partner, that's what I loved the most about this book, because sex is not a solo act.

In many cultures, sex is considered merely recreational but that is not the case with tantra sex. It is a 5,000-year-old Eastern spiritual practice that brings you enlightenment and makes you feel a reverence for your partner as well as mind blowing orgasms. Tantric sexuality is also an art that has to be learnt and mastered.

In my opinion the book is okay. I have heard a lot about tantric sex and I think it makes the couple more excited about their intimate time together. There are some massage techniques that are mentioned and I appreciate that it gave a brief discussion of what tantric sex is for beginners like me.

A tantric massage provides both me and my partner a relaxing and wonderful experience. This book

have a great techniques and explanations about how to create a deeper experience in the intimate side of life. It have a detailed explanation about this practice and also gives concise and practical steps to get started in on a new sensual exploration.
