The Sea Of Monsters (Percy Jackson & The Olympians)

Synopsis

NOTE: This is a graphic novel Seventh grade has been surprisingly quiet for Percy Jackson. Not a single monster has set foot on his New York prep-school campus. But when an innocent game of dodgeball among Percy and his classmates turns into a death match against an ugly gang of cannibal giants, things get...well, ugly. And the unexpected arrival of his friend Annabeth brings more bad news: the magical borders that protect Camp Half-Blood have been poisoned by a mysterious enemy, and unless a cure is found, the only safe haven for demigods will be destroyed. In the follow-up to the wildly popular *The Lightning Thief*, *The Graphic Novel*, Percy and his friends must journey into the Sea of Monsters to save their camp. But first, Percy will discover a stunning new secret about his family--one that makes him question whether being claimed as Poseidon's son is an honor or simply a cruel joke. Featuring a faithful adaptation by Robert Venditti, stunning artwork by Attila Futaki, and sumptuous colors by newcomer Tamas Gaspar, Rick Riordan's blockbuster book comes to life in *The Sea of Monsters, The Graphic Novel*.

Gr 4-8 In this adaptation of Riordan's novel (Hyperion, 2006), Camp Half-Blood's borders have been

poisoned, and Percy is off on a quest to find the healing Golden Fleece. The detailed, realistic art in full, rich color will appeal to fans of superhero comics: it is perfectly suited to the story's many action and fight scenes, none of which depict graphic violence. Fans of George O'Connor's "Olympians" series (First Second) may enjoy this similarly irreverent, action-packed view of Greek mythology. The text is succinct and witty, and there are many wordless scenes, including a few stunning pages in which Percy's friend Annabeth encounters the Sirens. Both high in quality and sure to be popular, this is a first purchase. Lisa Goldstein, Brooklyn Public Library, NY SLJ" --This text refers to an out of print or unavailable edition of this title.

This is a great way to get a visual idea of the event that happen in the book. But, if your gonna get this read the book also, the book explains the characters emotion on situations that the comic really doesn't bring out. Some of the chapters seem to be chopped up and take out some little things but, not anything really damaging to the story. Every important details is shown, only thing it doesn't do for me is express the emotion in the characters, like you get from reading the book, that I like to read, which is to be expected. This is must buy! A million times better than the movie, but the novel is the best way to enjoy these stories. Still a must buy for Percy Jackson fans who enjoy the story and wanna get a visual of the story.

One child is a reader and loves the Percy Jackson series. One child is NOT a reader, but was attracted to this book and loved it. I would recommend this to those children that do not read much, but need to meet a goal (such as AR) or may need a little boost to find something exciting and interesting to read before taking on a full scale novel. One disappointment is the book is only like a 1.0 point for AR, but that's minor and somewhat understandable.

9 y.o. son loves the book!

I LOVE IT because it has so much magic and much more. I would recommend this to anyone who likes the Harry Potter Series.

My daughter is always trying to avoid reading chapter books at almost 9 this is a problem! I found these Percy Jackson graphic novels and hurrah! she is more interested in these than a traditional book and they are enough to keep her engaged. Although I need to continue her transition to the written novels, this is a good 'bridge' and plus, they are fun and enjoyable for kids as well!

This was a great book. I love Percy Jackson it was so cool that I can see you soon and then we went to bed I don't want you to come back and forth between the dust settles in my life is a bad thing you have to get to see what I could do you have to play in the dust of the help

This book is my favorite book I would recommend this book to everyone because it is fun to read and at the same time it teaches you about mythology. That is why I recommend this book to everyone. Â Â Â Â,

If there's a new Rick Riordan book coming out, my son wants it. Always a great plot and plenty of hooks to keep him reading. Hard to do with teenage boys.
