I Think I Am In Friend-Love With You

I THINK I AM
IN FRIEND-LOVE
WITH YOU

YUMI SAKUGAWA

Synopsis

I have a confession to make. I think I am in friend-love with you. What's friend-love? It's that super-awesome bond you share with someone who makes you happy every time you text each other, or meet up for an epic outing. It's not love-love. You don't want to swap saliva; you want to swap favorite books. But it's just as intense and just as amazing. And it's this search for that connection that comic-book artist Yumi Sakugawa captures in *I Think I Am in Friend-Love with You*. It's perfect if you've ever fallen in friend-love and want to show that person how much you love them...in a platonic way, of course.

Customer Reviews

I got this book for a friend of 7+ years for her 20th birthday; we had a falling out due to an argument, and I thought this book was a good way to not only introduce the friendship back into place, but as a peace offering as well. Overall I love this book and think it is an irreplaceable piece of literature you can give to a close friend.

I love this book! I bought this for a "Friend-aversary" gift for my best friend. I read through the book

myself first and added my own personal touches to each page. These included little doodles and comments that were specific to our relationship. Even without these little touches this book really hits home for any best friends who you are totally invested in! You have to have the right kind of relationship to relate and enjoy this book!

This was a great stocking stuffer to go with gifts to my very dear friends. It's a very quirky book, and expresses my love for my friends quite aptly! The art is also so well done and I love that little creature-thing. Yay! Thoroughly satisfied and would consider buying more! :)

I was stoked to find this book! I saw it at Urban Outfitters a while back & later wanted to give it as a gift. Such a clever book and the artist is genius. If you have that one friend that you're just kind of obsessed with, this is a great buy. So cute and really expresses a charming sentiment of adoration for that special pal of yours. My gift giving experience was a total success.

The book so is cute and I love the illustrations inside. The reason why I gave it a 3 stars is because I received the book somewhat damaged. There's a scratch on the front, black smudges in the back, and some of the pages had folded edges. It seemed like the book was used before. However overall the book is awesome, props to the author.

I got this for as a gift for a friend who was moving out of state and we had become very close over the past few months and weeks up before their departure. This book spoke perfectly about how much I loved them in a platonic way. They wrote me after they left saying they loved it and they continue to read it every night :) it's a super cute book and perfect for that one person.

I gave this book to my friend for Christmas along with other items and he loved it. It's a great book to remind someone what they mean to you. It's the kind of book you give to your platonic soulmate. It's a cute book filled with the message "thank you for being my friend".

Bought this for a friend of the opposite sex that I became very close with over a deployment, but not THAT kind of close. It was so cute, witty, and perfect, it took away any awkwardness I worried about, despite the title. Lol.
