## Customer Reviews

Good summary of the important events of 1969 - maybe not quite 1968 in terms of historical impact - but any year with Woodstock, the Miracle Mets, the moon landing, and Nixon becoming President, obviously had a lot going on.

Holy Cow! Way too many memories came roaring back in this book. Thanks to the wonder of the

internet, my kids and grandkids can google some of this stuff as well as see some of it on YouTube. The grandkids think it's neat. Lot of history in this book.

Great book about a great transitional year. Even though I lived through 1969, the book mentioned things that I had forgotten or that I didn't know. It's a must read for young and old.

Extensive account of this era, when I graduated high school. Amazing research and detail, great historic content.

Ahhh, the memories! Graduated HS and entered college in '69... what a time to have lived!

Reminded me of a few things I'd forgotten. Very thorough and comprehensive.

an interesting book.

This book brought back a lot of memories from that year. It is well-written and in-depth and the kind of book I didn't want to put down until I reached the end.
