HAHAHAH - "2017 Edition" means nothing now that Tax laws have changed book.

Order was incomplete. Missing disc that was included in purchase.

good

it didnt come with the cengageV2now code, i need this ASAP

Good for taxes, but the subject is very boring

I bought this book for one of my college classes. This book tries to help teach you about many different complex tax concepts and gain an understanding of today's ever-changing tax legislation. This book is very comprehensive because the further you read into it, everything build on itself. If you don't understand the beginning things in the book, you are going to have a hard time understanding the rest of the book. Don't get me wrong, this book is a very effective solution for

helping you try to understand individual taxation, C corporations, taxes on financial statements, and flow-through. Some things that I found super helpful in this book are the ""Big Picture"" examples, memorable tax scenarios, and ""What If?"" case variations, clarify some concepts taught in this book.
