Customer Reviews

I know the value of this book as I'm suffering from it. Talking about me , the only symptom I had was joint pain. Each morning, I'd wake up with pain in a different joint. So now I'm taking medicine for this. I'm glad I found this book as it is very informative about lupus and I got a very good understanding. Thank you

This was very disappointing. It is not a book; It doesn't even pass as an essay. Perhaps you could call it an informational pamphlet. The content is minimal (and questionable). The spelling and grammar is atrocious. You will find better sources from a quick web search.
