Raised In Fire (Fire And Ice Trilogy Book 2)

Synopsis

The exciting continuation of the Top 10 Bestseller by USA Today Bestselling author, K.F. Breene! It is a common truth in my life that when it rains, it pours. The killings that once plagued New Orleans are cropping up again in Seattle. The local office is stumped. I'm called out to lend a fresh set of eyes, and my unique magical touch. It's only when I get there that I realize the Seattle office isn't stumped at all. They're being silenced by the Mages' Guild, a corrupt magical institution that doesn't want word to get out of what is plaguing the city. Worse, news of my magic might've slipped down to the underworld, hitting the ears of some extremely powerful demons. What I thought was a routine murder investigation turns into a fight for my life. With the help of Darius, my stalker elder vampire, and my dual-mage side kicks, I somehow have to dodge the Guild in order to stop one of the most powerful demons I've ever encountered. If I don't? I'll escape back down below with proof of what I really am. My life hangs in the balance, and this time, I can't see a way out.

Customer Reviews

Reagan continues to kick butt and take no prisoners -- even when she wants to take prisoners. Sent to Seattle to take down a group of mages killing people for power and raising a demon, Reagan finds herself up to her ears in mage, demon and vampire land. Elder vampire Darius and dual mages Callie and Dizzy come along for the ride. And it is a ride. Lots of sarcasm, snark, action and a bit of romance. Laugh-out-loud funny at times. I even found myself cheering for Darius. I am hooked. In my opinion, K.F. Breene writes excellent series' and this surely is one of them.

I did not think it possible to become a bigger fan of this author but I have never been happier to be proved wrong. Raised in Fire is incredibly funny, full of action, adventure and lots of magic. The story line kept me guessing and didn't get all serious. It was exactly what I need in a book and an absolute joy to read. The perfect cast of characters are full of attitude and witty humor, the more I learn about them the more I want! And WOW I love the heat between Reagan and Darius! Seriously, how is it that EVERYONE isn't reading this book right now?! I couldn't put it down! If you want something fast paced and laugh out loud funny read this book. I really can't recommend this trilogy enough!

The second book in the series is full of surprises. Reagan is a mystery! She hates Vampire and Werewolves, but they seem to be interested in her. She is trying to avoid demon at all cost. K.F. Breene has a new top series. If you love the supernatural and adventure than you will love this book. You don't have to read the first book, but you will want to read the first book, Born in Fire.

Great world, good writing, lots of action, just the right amount of romance and looooving. Everything is there for an excellent book. But, just like in cooking, just one ingredient too much or less than needed....And just like in enjoying that food, it's completely individual and subjective. So, for me, in some instances our heroine "crazy" factor was a bit of an overkill. It's hard to explain but I had, at one point "What just happened???" bouncing in my head. I do understand that it's hard to put in words and action this particular character trait and so I managed to get over it. For a while. Then we had some unnecessary juvenile behaviour of our heroine and I remembered noticing similar things in other series from this author. From that point on, it went downhill and it made me dissect everything. Even our hero's behaviour. It just wasn't believable enough. His change of heart, of overall behaviour, especially considering him being so high in hierarchy and all. Luckily, this OCD moment of mine did not last long and I had a lot of fun. The sidekicks in this series are hilarious

and I'm jumping on another ride just as I finish this review. In hopes of less juvenile outbursts and my personal OCD triggers, here we go....

Love this author, she always had a amazing storyline and awesome storytelling. I will read any of her books

This storyline was just as captivating as the first book. I'm glad I wasted no time purchasing it after the first one. After the way the first book ended, I didn't know what to think about Darius and Reagan together, but this book closed that up for me...and then some. I was just too giddy after the revelations *I'll stop here before I go into detail*. And Reagan was as funny and unfiltered as ever, add Callie and her brand of crazy and it was just fun times all around. Let's not forget the action!! Can I just say that Reagan is awesome? What I would do to have her supernatural fighting capability...

Such a great 2nd book in the trilogy. It had all the intrigue, humor, action and romance of the first and still left me wishing the 3rd and final book was ready now!! I can't wait to find out what happens next!

This is the second book in Fire trilogy. And this one is even better than the first one. I laughed out loud, and just could not put it down. This one was a good ride, and I have high hopes that the next one will be even better. K.F.Breene has spoiled us with really good book material. Characters are funny and snarky, so you will have hard time to put this one down, I guarantee it.
