The artist, graduated with a Bachelor degree of Fine Art, had been an art teacher in several private learning centers for years. Now she works as an individual illustrator for books which spark her most interest in bring her own artworks to others.

Lovely book of flowers, only problem is the quality of the paper. Definitely not suitable for markers.

At last, a new coloring book with flowers that actually LOOK like flowers! These drawings are lovely to print and paint on watercolor paper, then add as much detail as you like. I hope there'll be more flower books coming like this.

Wonderful coloring book with great designs and pictures :)

This is very relaxing when I am finished for the day and want to turn the tv off and have peace and quiet. It makes it very easy to fall asleep.

The drawings are simplistic and the paper doesn't have much tooth. I was disappointed and gave the book to my sister who is just learning to color.

Really really beautiful and realistic drawings of flowers. This is a book which I have waited to use, until Christmas to get the nice set of 78 pencils. I am looking forward to really planning the coloring very well. Some of these books are so overly detailed and busy, and downright mentally stimulating to look at because of it. But the whole point of adult coloring is relaxation. I am partial to coloring flowers, this is true, but this book is very well done. Also with some of these other books, many times I'm only drawn to a few in the whole book. In this case I am drawn to start with 80 to 90% of the whole book! Snowstorm going on maybe today is that day!

I have to say, the flowers are really realistic! And simply drawn, without any unnecessary busy backgrounds, just what I like!

A great book to have many wonderful huge pictures you will enjoy this book a lot!
